RECENT HIGHLIGHTS

NEW EQUIPMENT & CONSTRUCTION

The Town of Highlands has agreed to support the publication of our new map and has purchased a highline wire rope system for use by the greenway. Several greenway members have already received their training and we are using the equipment as part of our trail construction work in the Rec Park. The town has also approved a new bridge over Mill Creek, to be installed on-site by the town. Construction of the bridge is scheduled to begin in March.

UPCOMING EVENTS

FEBRUARY WORK TRIP— FEB 21

The next Highlands Plateau Greenway trip will be February 21, 2009. We will learn how to use a high line system and move stones for rock on rock steps to their final location. We will also continue work on our crib and the upper portion of the new loop if we have enough participants.

If you are interested in participating please register with Hillrie Quin at 526-2385 or hmquin@verizon.net. We will meet at the large parking lot behind the Rec Park at 9:00 AM for a brief orientation session and then walk to the trail sections for construction. Participants will be furnished the necessary tools and safety equipment. Participants should bring water, lunch, rain gear, and a day pack to hold everything. Boots and warm clothes that can get dirty are advised.

MARCH WORK TRIP— 21

Please sign up before the event if at all possible. Bring lunch, rain gear, warm clothes, water, a day pack and boots. We will be continuing our work in the Rec Park near the Mill Creek Bridge. Please contact Hillrie Quin 526-2385, hmquin@verizon.net to sign up.

WEB SITE

Please check out our web site at: www.highlandsgreenway.com We have lots of new pictures and features.
